"Revolutionizing Experiences, One Product at a Time."

Brand Vision

Our vision is to redefine the customer purchasing experience in the digital era, empowering businesses to deliver unparalleled satisfaction and ease through innovative artificial intelligence solutions. TrueBuilder.ai leverages cutting-edge technology to transform complex, high-value purchasing decisions into seamless, intuitive, and immersive experiences. We are committed to providing excellence in every interaction, with a dedication to bold innovation and professional integrity that catalyzes change in the way products are envisioned and acquired. We stand for progress, aiming to become a benchmark of modern digital commerce by continuously advancing our software capabilities to meet and exceed the expectations of tomorrow's customers. Our objective is to become an indispensable partner to businesses, enhancing their sales processes and equipping them with the tools needed to offer a world-class customer journey, securing lasting relationships and driving business success. Standing on the pillars of innovation, professionalism, and transformational excellence, TrueBuilder.ai is poised to lead in an unexplored market space, crafting the future of commerce with visionary foresight and Fortune500 acumen.

Brand Voice

Boldly Innovative, Seamlessly Professional

TrueBuilder.ai speaks to the forefront of innovation with the confidence of a Fortune500 pioneer. With a tone that is both forward-thinking and accessible, we simplify the complex, offering businesses a transformative toolkit that enhances their customer journey. Our resonance is sleek and authoritative, conveying the assurance of expertise while maintaining a modern, approachable essence. We aspire to mirror the sophistication and visionary spirit of industry leaders like Apple and Tesla, ensuring every interaction reflects our commitment to excellence and inventive solutions.

2.0

Brand Logo.

Lockup Logo.

The Lockup logo typically refers to a design featuring a symbol or wordmark that is tightly structured or “locked” together to communicate strength, security, or unity. A “lockup” can involve the combination of graphic elements, such as an icon and text, arranged in a fixed way to convey a brand’s identity or message cohesively.

Lockup

Logo Mark.

A lockup logo mark typically refers of a logo (symbol or mark). This is the graphic element or symbol that represents the brand. It could be a custom-designed icon, abstract shape, or visual element that carries the brand’s identity.

Clearspace Logo.

Clearspace logo is the term for a specific amount of space that a logo must have on all sides, no matter where it is used. The reason for clearspace is to ensure that a logo maximizes visibility and impact. Maintaining proper clearspace helps ensure the logo looks professional and doesn't lose its visual impact in crowded designs.

Clearspace Logo Mark.

Clearspace logo mark is the term for a specific amount of space that a logo mark must have on all sides, no matter where it is used. The reason for clearspace is to ensure that a logo maximizes visibility and impact. Maintaining proper clearspace helps ensure the logo mark looks professional and doesn't lose its visual impact in crowded designs.

Brand Colors.

Primary Colors.

These are the core colors of the brand or design. They are the most prominent and are used frequently across the brand materials, such as logos, websites, and packaging. A primary color palette usually includes key colors.

Primary Color - 01

Primary colors are the foundation of color theory. They are colors that cannot be created by mixing other colors together. They serve as the building blocks for all other colors.

Grayscale Colors.

A grayscale color palette consists of varying shades of gray, ranging from pure black to pure white, with all the intermediate tones in between. The palette doesn't contain any hue or color, it only varies in lightness or darkness.

P. Colors

Logo.

A primary color horizontal logo typically refers to a logo design where the layout is horizontally oriented and the colors used are the primary colors. These colors are considered basic building blocks for creating other colors and are often used to create a bold and straightforward design.

In use
Typography.

In-use typography refers to how a specific typeface or font is applied and utilized in various design contexts, such as in digital and print mediums. It's not just about choosing a font but about how that font is styled, arranged, and integrated into the design to ensure readability, visual appeal, and effective communication.

Icons and Typography.

Icons and typography are both essential design elements used to communicate messages visually. They work together in many designs—whether it’s a website, an app, or branding materials—to convey meaning quickly and effectively. Each plays a distinct role, but when paired well, they enhance the user experience and design cohesion.
